

## ONLINE BACKUP / REMOTE WORKSPACE

### WHAT ARE WE OFFERING?

- Fully-automated **dependable offsite-backup** for business
- Local data-storage in **Scotland** (unlike competitors using USA) storage overseas is cheaper but tediously slow for data-transfer
- Protection against **pc-failure/theft/deletion/fire/flooding**
- **Remote-Workspace** – easily **work from multiple locations** ie: you can now access your 'work-in-progress' from anywhere
- **FREE assistance** when needed for storing/retrieving data
- Up to **5 hours FREE assistance** recovering from **PC-Failure**
- **100% Guarantee of not losing your data** (see below\*)

### WHY CHOOSE WORKING-PC?

- No hassle - your **individual bespoke setup** is all done for you
- We test that **all** your business-critical data is backed-up
- No small-print / **no hidden excess-use/bandwidth charges**
- There is a regular '**backup-of-the-backup**' stored in a **safe\***
- You get a **massive 50GB of space** on a server with
- **1.2 Million-hour runtime-rated disks** in a **mirrored pair**
- Reliable storage with its own backup, for **peace-of-mind**
